Subpart AA—Missouri

§ 52.1319 Identification of plan—Conditional approval.

(a) Elements of the maintenance plan revision to the State Implementation Plan (SIP) submitted by the Governor’s designee on March 23, 1998, which address contingency measures for the Kansas City Ozone Maintenance Area are conditionally approved. This includes a commitment to implement the additional reductions as expeditiously as practicable.

(b) Full approval of the SIP is conditioned upon receipt of one of the following by June 28, 2000: a letter from the Governor of Missouri requesting that EPA require the sale of Federal reformulated gasoline within the Mis-

souri portion of the KCMA beginning April 15, 2000; an equivalent alternative state fuel regulation; or a regulation requiring Stage II vapor recovery systems at retail gasoline stations in the Missouri portion of the KCMA. If the state fails to submit one of the above requirements within the time specified, the conditional approval automatically converts to a disapproval without further regulatory action.
